Concord: The New Hampshire Firearms Coalition is shocked and dismayed that in their first action after taking office, newly elected New Hampshire House Democrats want to trample the natural right to self defense by wiping out the Constitutional right to keep and bear arms.

Rep. Stephen Shurtleff, as the newly sworn in speaker, chairs a committee that will start dismantling the rights of both citizens and legislators by eliminating the right to protect themselves both in the statehouse and while walking from their parked cars to the statehouse.

NHFC President Alan Rice said: *"By banning guns in Representatives Hall, state representatives, many of whom are female and carry guns for self defense against larger, stronger assailants will be disarmed and easy prey when they walk from remote parking garages to the statehouse. The party that claims to support women is leaving women defenseless."*

Rice also said: *"It is sad that these people are naïve enough to really believe that a rule and sign will stop a criminal intent on murder. Armed self defense works, taking away rights has failed wherever it has been attempted."*

NHFC Corporate Secretary and former State Representative JR Hoell said: *"With critical business and other needs in the state, the Dems first order of business is to take away firearms."* Hoell further stated, that *"the Dems seem to have replaced 'Live Free or Die' with a new motto: 'Leave no gun behind... take them all.'"*

"While everyone else is busy preparing for Christmas and New Years, the radical democrat politicians at the State House are busy preparing lumps of coal to put in the stockings of those citizens they don't like. Discouraging the exercise of their natural right to protect themselves." said NHFC Vice President Paul Marquis.

The New Hampshire Firearms Coalition, Inc. is a non-profit organization made up of firearms owners, dealers and manufacturers that is committed to protecting the rights of the citizens of the State of New Hampshire.
